PROFESSIONAL

- Experience in a highly professional environment whilst running my own Web Design Business (Abstract Thinking & WebDevelopWolf).
- Can work to meet tight deadlines and under pressure, as demonstrated in all roles.
- A dedicated team member that thrives on meeting and surpassing business goals.
- Can work in a one-to-one client sales environment and just as well in a larger, networking scenario. I am also a very professional, charismatic public speaker and online content creator.

TECHNICAL

- Web application programming skills in: HTML5, CSS3, JavaScript/Typescript vanilla and frameworks (including JQuery & Angular/AngularJS, KnockoutJS, VueJS, React, Ionic etc), .NET Core for API (C#), ASP.NET (Web Forms, Web API 2.0 & MVC) & SQL, with proficiency in HTML5, CSS3 (including Bootstrap (3 - 5) and responsive design), .NET Core MVC & Razor Pages (C# & legacy VB.NET).
- Extensive work over 15 years with HTML5, CSS3 and JavaScript (vanilla and various frameworks) to achieve a sleek, responsive design for modern clients.
- Knowledge in brand psychology, web accessibility and up-to-date standards compliance using tools such as InVision and Figma.
- Worked extensively in applications such as Adobe Photoshop & Microsoft Visual Studio and VSCode.
- Experience working in an agile and SCRUM environment and with efficiently organised source control (now Azure DevOps, GitHub & SVN) and in writing comprehensive technical specifications and detailed customer quotes. I also have BA level experience with DevOps Boards, story writing, task management and project management.
- Experience with three different types of database software/servers including Cosmos DB, Microsoft SQL Server & MYSQL/PhpMyAdmin running on various operating systems and network applications.
- Multimedia application design and programming skills using HTML5, Premier, After Effects, HitFilm Express and Adobe Flash.

PERSONAL

- Good organisational skills, which were vital in previous roles, to keep track of clients, tasks, and issues.

- Teamwork skills, as demonstrated in all roles and developed during my time with 'Wolf Help', a wolf conservation and education group.
- Exceptional communication skills, demonstrated through various customer centric roles.
- A published poet at 19 years old and a published novelist at 23 years old.
- A volunteer Zookeeper at Gentleshaw Wildlife Centre, volunteer Girl Guide Leader, Ambassador for Wavemaker STEM, YouTube content creator and Saint John's qualified first aider and ex-volunteer first aider.

QUALIFICATIONS

STAFFORDSHIRE UNIVERSITY

WORK EXPERIENCE

KEY TRAVEL LTD

Remote
Dec 2023 – Current

FRONT END DEVELOPER

Working remotely to in a specialist tech team, using Jira, Bitbucket and Figma to design and implement a humanitarian travel system using the React JS framework. Served by a range of APIs, both our own using .NET and commercial, helping students, spiritualists and humanitarian aid workers do good, better.

HONEY LEGAL

Remote
Apr 2020 – Dec 2023

SENIOR DEVELOPER

Working remotely to design, develop, deploy, and maintain an application to aid customer in building custom estate planning packages using Angular 9 & .NET support applications served by a .NET Core API and CosmosDB with continuous integration on Microsoft Azure. Also responsible for the writing of technical specifications for new features, maintenance of DevOps task boards and sprint planning, upon building these plans I then divided them amongst the team and used DevOps task tools to report progress back to management.

NHS HEE

Remote
Jan 2020 – Mar 2020

CONTRACT DEVELOPER

Working from home on a nationwide Learning Hub sharing resources across the entire NHS network. The Learning Hub is built and maintained using an asynchronous .NET Core API and accessible Vue JS front-end, driven by a complex SQL database

WAVEMAKER

Mitchell Arts Centre,
Hanley
June 2018 – Jan 2020

CONTRACT PRODUCT LEAD / APPLICATION DEVELOPER

Working remotely with my client to plan, manage and develop a learning application built using Angular 5 CLI & TypeScript and data driven by an ASP.NET Web API 2.0 / SQL database backend.

HAULTECH LTD

Evolution Business Park,
Newcastle -U-Lyme
May 2017 – June 2018

SENIOR SOFTWARE ENGINEER

Working with the latest .NET technologies, JavaScript, and AngularJS to refresh and improve existing products to further develop reporting software for up-to-date telematics and tracking systems within the haulage industry.

KOKO DIGITAL LTD

High Street, Newcastle
Feb 2017 – April 2017

CONTRACT FRONT END DEVELOPER

Returning to Koko Digital after 8 years since they last hired me, I was responsible for the front-end HTML, CSS, animation, and JavaScript engines for two mobile applications (one an educational game – for Kinder and the other a newly released product catalogue for Ikea) running on all mobile platforms. These applications were supplied to global multi-million-pound companies to enhance their marketing campaigns.

LIVERES

Hurricane Close,
Stafford
June 2016 – Oct 2016

.NET DEVELOPER

Working in an agile environment to improve the quality and add more functions to the existing LiveRES restaurant booking system and working with LiveRES' parent company Zonal to provide integration with the #1 provider of till systems to the hospitality industry.

SPEC CHECK EUROPE

Trentham Lakes, Stoke
April 2015 – June 2016

CONTRACT SENIOR WEB DEVELOPER

Working in an agile SCRUM environment to convert the Spec Check public and portal sites from ASP.NET Web forms to MVC & Entity Framework and utilising SQL and C# to create speed enhancements to new search functionality.

AGEAS RETAIL UK

Trentham Lakes, Stoke
Sept 2015 – Mar 2016

WEB DEVELOPER

Working in ASP.NET, MVC 4 and C with HTML5, JQuery and CSS bootstrap to maintain quote engines for large brands such as Kwik-Fit and Volkswagen. Using database first development to create and maintain a portal that aids brands to manage their own websites

PARKER SOFTWARE

Knypersley, Stoke
Mar 2015 – Sept 2015

WEB DEVELOPER

Working in ASP.NET and C# and VB.NET with HTML5 and CSS bootstrap to add functionality to the existing Live Chat web service
Creating specification documentation at the start of projects to accurately evaluate functionality

AUTONET INSURANCE

Burslem, Stoke
Jan 2015 – Mar 2015

WEB DEVELOPER

Working in ASP.NET and C# with HTML5 and CSS bootstrap to maintain quote engines for Autonet and other price comparison sites such as Money Supermarket and USwitch. Creation and maintenance of multiple databases and ensuring the correct security and the correct look for each product. Alongside working on various internal tools such as ID checking, recruitment and other applications maximising the productivity of the admin team.

ACCESS THANKQ

Lockington, Derby
Jan 2014 – Jan 2015

WEB DEVELOPER

Manipulation of CSS, HTML, SQL, XML, ASP.NET & VB.NET to customise clients web portals. Extensive work in JavaScript to achieve sleek, responsive websites using KnockoutJS. Writing Quotations and Technical Documentation customised to clients' needs and 3rd Line Support for the ThankQ Web Portal

INTELLISELL LTD / CPIO LTD

Fort Dunlop,
Birmingham

Feb 2012 – Dec 2013

WEB CONSULTANT

Project and technical management of Intellisell E-Commerce Installation and Configuration Projects from Start to Finish. Manipulation of CSS, HTML, SQL, XML, ASP.NET & C# to customise clients Intellisell solution. Extensive Testing of in-house developed roadmap features for Intellisell and 3rd Line Support. Some of my time here was also dedicated to BA tasks as an assistant to the lead BA.
